BACKPACK FARM

ULTRA-LOW VOLUME ELECTROSTATIC
SPRAYER WITH AN INTEGRATED TANK.

DESCRIPTION

Fullcover Backpack is a portable, electrostatic system designed for the efficient application of sanitizers and agrochemicals.

Equipped with a two-stroke engine and a 15-liter tank, it offers autonomy for applications in large and remote areas without relying on external power, making it a powerful and reliable tool for crop protection.

Features:

- 🌿 Ultra-low volume application with electrostatic adhesion.
- 🌿 Two-stroke gasoline engine for spraying and a rechargeable battery with an 8-hour runtime for the electrostatic system.
- 🌿 Uniform and efficient distribution of micro-droplets, improving the coverage and adhesion of the applied treatment.
- 🌿 Coverage without runoff.
- 🌿 Water savings and efficiency in application.
- 🌿 Can be used with products such as: insecticides, foliar fertilizers, fungicides, herbicides, sanitizers, and disinfectants.

COMPONENTS

Technical Features:

Engine Power: 5 Horsepower

Tank Capacity: 15 Liters

Average Droplet Diameter: 120 microns

Electrostatic Charge: 15,000 Volts peak-to-peak

Flow rate regulation via valve.

Power Supply: 6-Volt battery (6 to 8-hour runtime).

Horizontal application range: 12 to 15 meters.

Two-stroke gasoline engine.
